EUROPEAN LITHIUM DUAL LISTS ON THE FRANKFURT STOCK EXCHANGE

European Lithium Limited (ASX:EUR) (the **Company**) is pleased to announce that it has listed its shares on the Frankfurt Stock Exchange to increase exposure to European investors. European investors will be able to trade the Company's ordinary shares in Euros in their own time zone under the stock ticker "PF8" (ISIN: AU000000EUR7).

The Company anticipates the Frankfurt listing will assist with market liquidity, broaden the Company's shareholder base and raise the Company's profile to support marketing activities in its region of operation as it focuses on opportunities to fast track production.

Commenting on the listing, Tony Sage, Non-Executive Chairman said "This is a positive step for the Company as we now have increased access to the European market which is very strong for critical commodities, such as lithium. Given our project is in Austria, it is important that the Company can access investors in Europe".

The Company recently announced it had completed a program of twin hole drilling and repeat channel sampling to verify the original resource data provided by Minerex at its wholly owned advanced Wolfsberg Lithium project in Austria. The Company anticipates the release of an upgraded resource model by early November 2016.

About the Frankfurt Stock Exchange

Frankfurter Wertpapierbörse (FWB®, the Frankfurt Stock Exchange) is one of the world's

largest trading centers for securities. With a share in turnover of more than 85 per cent, it is the largest of Germany's seven stock exchanges. Deutsche Börse AG operates the Frankfurt Stock Exchange, an entity under public law. In this capacity it ensures the functioning of exchange trading.

The Frankfurt Stock Exchange facilitates advanced electronic trading, settlement and information systems. Thus, it is able to meet the steadily growing requirements of cross-border trading. Besides the specialist trading at Frankfurt Stock Exchange, its fully electronic trading system Xetra® is one of the leading electronic trading platforms in the world. With the launch of Xetra in 1997, the Frankfurt Stock Exchange succeeded not only in strengthening its own competitive position. It also created attractive framework conditions for foreign investors and market participants.

Today, the Frankfurt Stock Exchange is an international trading centre. This is also reflected in the structure of its participants. Of the more than 200 market participants, roughly half are from countries other than Germany.
